

LEADING SPECIALISTS IN DIVING SERVICES

Diving Professionals 

CALAMITIES

Within 2 to 3 hours a dive team on site - guaranteed!
DTS provides customized service - 365 days a year, 24 hours a day, 7 days a week.

For reporting emergencies we have an easy-to-remember phone number: +31 (0)88-3652407.

Diving company DTS is certified according to VCA* 2017 6.0 and ISO 9001-2015, which guarantees quality and continuity during calamities.

First aid for acute emergencies

Acting quickly, decisively and expertly: that's what diving company DTS is all about. Like when a lock gate won't close. For the safety of residents and neighbours. For the environment. Or for the continuity of a business process - for example in the shipping industry. DTS can be reached 24/7 on +31 (0)88-3652407 for calamity management and investigation and to provide direct insight into the actual situation.

Three Northern Provinces

With a structured approach, the right attitude and our modern fleet, we are able to limit the damage as much as possible in the event of a calamity or, even better, to remedy it.

Our working area is mainly in the three northern provinces, where we are usually on site within 60-90 minutes. We work on behalf of private individuals, companies, water boards, provinces, municipalities and Rijkswaterstaat - the executive agency of the Dutch Ministry of Infrastructure and Water Management.

Insurance

Non-life insurers and insured individuals can contact us day & night and at weekends. Our diving platforms are equipped with the most modern video equipment, enabling us to visualize any damage or abnormalities with minimal visibility. During the service, we can also clearly visualize any work that must be carried out to remedy the calamity. All this benefits proper file formation and smooth handling, for both the insurer and the victim. We will always try to maintain a dialogue with all parties involved - independently and transparently.

UNIQUE IN THE NETHERLANDS

In addition to our fast service, DTS has a warranted safety and quality system. When registering in our system, divers are required to submit documents such as proof of identity, diving certificates, health declarations and other certificates. When a certificate gets expired, both the diver and DTS are notified. Thanks to this mandatory registration, DTS has access to specialist knowledge, skills and qualifications for which divers have been trained and certified. As a result, DTS is able to guarantee that within 2 to 3 hours a dive team will be on site (according to legal obligations a dive team consists of 1 team leader, 1 standby diver and 1 executive diver) – a team that has the right capabilities and expertise for your assignment. That is unique in The Netherlands!

Why call DTS in case of calamities?

Distinctive, innovative and cost effective

DTS offers tailor-made solutions, both within and outside the emergency service.

Smarter, easier and independent: these are keywords that emphasize DTS' fast service through innovative solutions. A unique concept that does not only distinguish DTS from other (large) diving companies in a progressive way, but that also strengthens its position within the calamity service.

Moving along actively, responding alertly to developments, constantly innovating and taking cost-saving measures where possible. That is DTS' vision on entrepreneurship. Thus, DTS clearly takes things one step further than merely satisfying customers, with the ultimate goal of taking away our customers concerns and providing well-founded advice.

DTS: your partner in emergencies

The quality management system, attention to underwater management and know-how are the fundamental ingredients of DTS. We deal with calamities and damage decisively, objectively and fairly; we provide independent advice and service on location. This makes DTS a fully-fledged partner: the right choice in case of calamities.

- DTS is professional and knowledgeable. We have the most modern equipment and all our divers are well trained and certified.
- DTS works according to clear and transparent procedures, supported by our quality and safety management system.
- DTS is completely independent. Clients and victims can count on honest, independent and well-founded advice.
- Reports are drawn up on the basis of factual findings, supported by imagery.
- DTS stands for a decisive, objective and practical approach and enters into dialogue with all parties involved in order to find a suitable solution.
- Safety and quality are always central to DTS.
