

GOING DEEP TO DELIVER TOP SERVICE

Diving Professionals

+31 (0)88-3652407

DTS

Diving company DTS is located in the province of Groningen. The working area of DTS is the whole of The Netherlands. More than ten years of experience in diving activities makes DTS a reliable partner for underwater work. DTS is certified according to VCA* 2017 6.0 and ISO 9001-2015.

Expert and independent advice

As an independent consultant, DTS provides expert technical advice. Our reports are solely based on DTS' observations and knowledge. By means of control during execution, DTS delivers optimal results. In addition to technical advice for underwater work, you also can't go wrong with DTS for technical investigations, inspections and second opinions. DTS uses advanced diving materials and has its own tools that are included as standard equipment in the specially equipped material trucks.

DTS takes complete care of your calamities

DTS inventively translates your problems and difficulties into solutions and possibilities. As your partner, DTS thinks solution-oriented and delivers complete customization within the emergency service. Thanks to short communication lines, you will not lose valuable time and DTS will act quickly; one phone call to DTS is enough to have us take over and care for your calamity.

Years of experience allow us to accurately draw up an action plan that is based on insight and expertise. Good consultation with you as a client is important to DTS. After the assignment is finalized you will be carefully informed about the work that is performed.

Safety and quality system

Diving company DTS works exclusively with certified divers. This is secured by DTS' quality management system. Mandatory registration guarantees a strict check on identification, certification and health declarations. Before a diving team enters the water, the Dive Profile is reviewed. This includes topics like a Toolbox meeting and a Last Minute Risk Analysis (LMRA). After the job is performed you will receive a copy of the Dive Profile.

UNIQUE CALAMITY SERVICE THROUGHOUT THE NETHERLANDS

Do you need a diving team quickly in case of calamity? Diving company DTS guarantees an experienced diving team on site throughout The Netherlands within 2 to 3 hours - 365 days a year, 24 hours a day.

In the three northern provinces we can even be on location within an average of 60 to 90 minutes.

DTS offers an emergency service for all infrastructure sectors, municipal authorities and provincial authorities. Reliable service, focusing on our clients.
